Academic Affairs Student Fee (per semester) (53)	250.00	NTE
Student Insurance Admin Fee (per semester) (54)	15.00	NTE
Student Parking/Transportation Fee ( per semester) (61)	78.00	NTE

NTE = Not To Exceed

1 This is a non-refundable fee paid by applicants to the Bridge Program, a special track for RN's baccalaureate degree in another field and are applying for the master's program. On the average approximately 25 hours for various faculty members to review all the documentation for advanced applicants to the Bridge program. The increase helps to better meet actual costs.

2 This fee (previously called Laboratory Fee) is a one-time fee, charged to graduate students at the time of enrollment into a health assessment course. It covers expenses associated with the campus Clinical laboratory and the supplies needed for the suture laboratory. The increase helps to better meet academic needs.

3 Pharmacy students are required to have student malpractice/liability insurance prior to enrollment.

4 Departmental rates are set on the basis of need. The Physician Assistant Program lab will require a NTE level of \$800.

5 The ceiling on Student Liability Insurance in the College of Health Professions covers students in a wide range of programs. The high ceiling reflects the high cost of liability insurance for paramedic students, which is representative of the cost to most students. Malpractice coverage for Physician Assistant students is also required for the year. Thus, we separately request the PA upper limit accordingly.

6 This fee is to cover the time and effort in processing a late registration.

7 College of Health Related Professions' application fee will be charged in the following manner: \$20 for initial program application per semester; \$10 for each additional program per semester.

8 Although not a fee, an enrollment deposit is due upon acceptance and is not refundable. It is applied to the first term tuition. A tuition deposit of \$300 will be required of physician assistant applicants who are accepted into the program. The tuition deposit is utilized to hold a position in the cohort and will be applied to the student's tuition expenses once the student matriculates into the program. The tuition deposit is not refundable to accepted applicants who choose not to enroll. The deadline for the college to receive the tuition deposit will be 3 weeks after the applicant has been officially notified of acceptance into the program.

9 For both Undergraduate and Graduate Nursing Students.

10 This one-time fee will be for the fitting of nursing students for an N95 mask. The mask will be essential in a disaster situation and the fitting for one is required by clinical sites.

11 This fee is collected and sent to an outside service to microfilm a dissertation. It includes ProQuest payment change to include online open access of dissertations.

12 One half of the applicable (examination) semester credit hour fee.

13 Not to exceed 10% of the total registration fee. This will vary from year to year as tuition rates change.

14 To offset expenses associated with processing applications through the admissions process for new applicants.

15 This fee supports funding of the student health program for full or part-time students.

16 There are two fees associated with this request that are no longer charged: the Health Occupations Aptitude Examination and the National Board of Respiratory Care (NBRC) practice examinations. All applicants must take the Health Occupations Aptitude Examination as part of the requirements for entry into any of the programs in the Department of Respiratory Care. The second portion of the fee is to cover the cost of the NBRC practice examinations for use throughout the curriculum to measure the competencies. The first portion of the fee is self-assessed for entry-level practitioners. Two other examinations provided by the NBRC are a written examination and a clinical simulation examination. The students enrolled in the registry-eligible programs are required to take these two examinations.

17 An Advanced Standing Assessment Fee is not longer charged for College of Health Professions students who seek it (holding the entry-level credential). They must demonstrate skill competency as part of the admissions requirements. These entering students possess professional certification and will be seeking the Bachelor's degree. Faculty will assess both knowledge and skill levels using a battery of tests and skill evaluation methodologies. The costs of these assessments will not be covered by the department.

to each student entering this tract of the program. Students who fail to satisfactorily demonstrate competencies may repeat the assessment.

18 This fee is a one-time fee charged to freshmen.

19 This fee is used to cover the cost of replacing lost diplomas.

20 The Progression Fee for Seniors covers the cost of ATI testing to show proficiency in the senior content before their RN licensure test is taken. The testing fee has increased for FY14.

20a The Progression Fee for Juniors covers the cost of ATI testing to show proficiency in the junior course content before their senior level courses are taken. The cost is higher for juniors than for seniors because they attend 3 semesters and seniors only 2. The testing fee has increased for FY14.

21 A duplicate transcript fee will be charged for any request over the one free copy allowed.

22 Assessed for full-time and part-time students, this fee is to recover a portion of the expense in the general use of technological products and avenues. It offsets expenses associated with developing new technological advances. The increase will provide a tech support position to accommodate student needs connecting all types of wireless devices to the wireless network; attaching/syncing email and calendars; installation/support the working of Citrix; installation of MS Office

23 Payable at the last registration prior to completing the program requirements. The change is for an amount equal for all colleges and the graduate school.

24 We feel it is necessary to pass the malpractice insurance fee on to the students.

25 Based on guidance provided by the program to more adequately reflect costs

26 To offset expenses associated with processing paperwork and tuition calculations for changes before or during registration and to discourage such changes.

27 The Classroom Participation System (CPS) is an interactive methodology for faculty to receive questions or in the administering of quizzes, thereby indicating the level of understanding the student of a specific concept presented in lecture. A rental fee increase for the handset will be less costly than the purchase of a handset and the fee each semester for online registration.

28 The fee for the clinical skills lab for undergraduate students is so that students might have professional learning experience(s) in the clinical skills lab with professional live models/patients. In the past, students were grouped together in peer groups to do the skills testing and/or assessments on one another. Having professional services in the UAMS clinical skills lab will enhance the learning experience for students. The increase to the skills lab fee that we use for the graduate/masters level students except the level and frequency is less for the undergraduates. The increase is to help cover the actual usage costs.

29 Each medical student will be assessed this fee to support the increased use of standardized patients (trained to act as patients). The expansion of this teaching tool will aid students in the Clinical Skills Examination that is now part of the United States Medical Licensing Examination that all students must pass.

30 The Standardized Patient fee will be charged to Pharmacy 2, Pharmacy 3 and Pharmacy 4 classes. They might have learning experiences in the clinical skills lab with professional live models/patients. The fee will be matched to their projected actual usage.

31 The master's review fee is being proposed to cover the administrative costs involved with reviewing an applicant file (records, transcript, completed practice hours, etc.) It takes a committee prior to being approved for the CON master's program for specific nursing track. The increase is to help cover actual costs.

32 The CON criminal background check fee is no longer charged.

33 The Pre-NAPLEX (North American Pharmacist Licensure Examination) is a practice exam to prepare for the NAPLEX.

students with the actual licensure exam as well as providing a score estimate. This fee would be the actual cost of the exam.

34 The student services fee will cover the cost of student requests that our Registrar's office prepends out to individuals, schools, businesses, etc., for work/reference/higher education purposes. The request to increase this fee is for three reasons: 1) to cover the cost of mailing diplomas (over unbendable envelopes sent certified delivery) which have previously been distributed at Commencement 2) to pay for graduation pins that will be distributed to the students during the Recognition Ceremony 3) to cover the increased cost of providing and mailing student documents after graduation (transcript verifications, deferments, transcript paper, etc.)

35 The Standardized Patient fee will be charged to College of Health Professions students in certain classes so that they have learning experience(s) in the clinical skills lab with professional live models. Increased usage costs for Physician Assistant Program students require a fee change.

36 This application processing fee covers the extra administrative costs associated with the additional requirements of processing international student information. Students are paying SOF as well.

37 The College of Pharmacy is now required to provide training related to preparation and dispensing of drugs. This fee will offset the cost of lab supplies used to train first and second year students in dispensing techniques.

38 To offset expenses associated with processing applications through the SOPHAS admissions system for degreed programs.

39 The change in fee creates uniformity across all colleges and the graduate school.

40 This fee would offset the costs of reviewing coursework for prerequisite courses and the time to advise pre-applicants prior to acceptance into the programs. The increase is to help cover actual costs.

41 The number of students from other schools of medicine around the country who want to come to UAMS to do senior elective rotations has grown and tax our resources. This is due at least in part to an AAMC initiative called the Visiting Student Application Service (VSAS), a computer program that enables students to apply for off-campus rotations much more easily than in the past. This fee to visiting students covers the work done in processing their applications, etc. The amount of this UAMS fee is the amount charged by most medical schools.

42 COM NBME Comprehensive exams are now included in the \$300 Examination Fees (footnote 1).

43 The College of Medicine uses many metrics to grade and evaluate our students, as well as to constantly compare our outcomes against national norms. We look at how our students have performed on the Medical College Admissions Test (MCAT), and we follow their scores on the United States Medical Licensure Examinations (USMLE), the Comprehensive Basic Science Examination, and, very importantly, the National Board of Medical Subject Examinations (also called Shelf Examinations) provided by the National Board of Medical Examiners (NBME), as they progress through medical school. Each student in our College sits for a NBME subject examination at the end of each major course for which a subject examination is available and the results are used in the grading of our students as well as for the more global purpose of monitoring on a continuous basis, how our students and courses are doing when compared to national standards. M1 students take these examinations in Gross Anatomy, Biochemistry, Neuroscience, Microanatomy, Physiology, Microbiology, and Introduction to Clinical Medicine. M2 students take these examinations in Behavioral Science, Pathophysiology, Pharmacology, and Microbiology. M3 students take the examinations in Family Medicine, Internal Medicine, Ob/Gyn, Pediatrics, Psychiatry, and Surgery. Over the years, the NBME has increased the per-student fee charged for these examinations and has recently added a fee for each administrative unit. Therefore, we are asking for a student fee of Not To Exceed (NTE) \$300 per year for each M1, M2, or M3 medical student for these National Board of Medical Examiners' Subject Examinations.

We plan to charge the students for the actual cost of the examinations in their year plus the NBME administrative fee, which is currently \$175/yr M1's, \$220/yr M2's and \$266/yr M3's. The NTE number is \$300.

us to adjust upward should the NBME increase the cost of the examination.

44 Annually not to exceed \$500 per year for each pharmacy year (P1, P2, P3, & P4)

This fee will cover expenses related to the experiential education enterprise. College of Pharmacy students participate in Introductory Pharmacy Practice Experiences (P1, P2, & P3 years) and Adv Pharmacy Practice Experiences (P4 year). These experiences are taught by non-faculty preceptor experiential program accounts for approximately 25% of the curriculum. Expenses include but are limited to the following:

- Volunteer preceptor support with .5 FTE faculty preceptor site support
- Volunteer preceptor professional fees
- Continuous quality assurance measures – experiential education site visits
- Student management system for scheduling, student and preceptor assessment & evaluation, and student portfolio management

45 With the addition of a Simulation Laboratory, we will have the capability of teaching medical students multiple techniques on high fidelity mannequins that will more adequately prepare them for the practice of medicine and ensure our continued compliance with accreditation standards.

46 The College of Pharmacy student services fee will cover the cost of security paper, transcripts incurred by the Registrar's Office in preparing and mailing transcripts to individuals, schools and work, reference and /or higher education purposes. The increase in the graduation fee would replace the Duplicate Transcript fee of \$2.30 per transcript.

47 This fee provides student access to a campus medical clinic and will be charged to all local, full-time students

48 CON skills assessment test is no longer used.

49 The BSN Health Assessment Lab Fee is a one-time fee charged to undergraduate students at the time of enrollment into a health assessment course. It covers expenses associated with the campus Clinical Skills laboratory.

50 Currently, the College of Pharmacy purchases three electronic resources:

LexiComp is a PDA-accessible drug information database to support medication safety. The database provides dosing information by route, population, indication, renal/hepatic impairment adjustments, special and drug interaction analysis. It also provides clinical pearls addressing anesthesia, cardiology, cancer oncology, and mental health. It is available to students & faculty.

ExamMaster is a large health science question bank, with over 19,000 questions. The mock exam simulates actual board exam experience and identifies strengths and weaknesses. The questions can be accessed in exam mode or study mode and can be used to create customized study materials. It is available through the Library and is in combination with the College of Medicine.

AccessPharmacy provides drug monographs, information about herbs and supplements, virtual pharmacy animations from Goodman & Gilman's textbook, a top 200 drugs challenge, numerous pharmacy board exam questions, and a mock pharmacy board exam. Available to the entire campus through the Library.

The College of Pharmacy continuously reviews various products as they become available and will make any change to the electronic resources utilized when it better meets the needs of our pharmacy students and faculty.

51 The NTE \$300/year fee is for our P4 students. Upon completion of the P3 year, all students will be required to take a NAPLEX Prep Course. If they fail the course, they will have to re-take it. We estimate the fee of \$125 will cover the actual cost of all enrollment fees. This is a very reasonable price for such a course as most such courses cost around \$300.

52 College of Health Professions microscope rental fee increase provides funds for equipment enrollment

53 To provide infrastructure funding for campus academic support through the VCA division.

54 This fee will help administer the tracking and verification of student insurance.

55 The charge of \$80/year for M1 and M2 students and \$30/year for M3 and M4 students is a Curriculum Assessment Fee. The fee is related to changes made by our accreditation body (the LCME) and our related accreditation status. Changes in some of LCME requirements include much more central monitoring. This will require central monitoring of the curriculum, of student work, patient contacts, computerized evaluations, better scheduling, and a much better ability to catalog our curriculum. To accomplish these LCME requirements, we need a much better computerized platform in the M1 and M2 years, and a much more robust monitoring software for use in all years of the curriculum. This fee will allow us to purchase two additional software packages specifically designed to allow just this type of monitoring in medical schools, and which are already in operation in several medical schools across the country. Without this fee, we believe our accreditation will be in serious jeopardy. The increase is to cover the change in charge by the software company.

56 Degree-seeking students who request to pay their tuition/fees in installments will be assessed a \$50.00 fee per semester. Deferred payments will only be offered in Fall and Spring semesters. The fee will be paid to the College at the time of the request.

57 The College of Health Related Professions would like to provide additional activities for students but requires additional revenue to fund them. Presently, the college receives \$8 per student per year for social events. This fee is generated out of tuition revenue and is transferred to the college through the Vice-Chancellor for Academic Affairs' office. The current fee of \$8 will be used to fund our student orientation lunches. The new student activity fee will enable CHRP to design, develop and implement support activities, special events, and social events. Use of this fee will allow for a better connection between the campus, the college, and the community by providing a more engaging, fulfilling, and educational experience for our students.

58 The Department of Physician Assistant Studies charges a Student Diagnostic Equipment fee for each entering student to purchase personal medical equipment needed for multiple didactic courses, standardized patients, clinical rotations and community activities. Equipment includes permanent items such as, but not limited to, a stethoscope, blood pressure cuff, otoscope, ophthalmoscope, reflex hammer, tuning forks, etc. Students will retain this equipment to utilize after graduation.

59 Graduate School charge for College of Nursing BS to PhD program students only.  
Covers increase in Health Assessment program costs

60 The National Student Nursing Association (NSNA) fee will provide NSNA membership to every BSN student. This will allow the College of Nursing to pay a School Membership, which will reduce the student price (as of 1/15/13 - from \$40/year to \$30/year). It will also allow students a pathway to meet the College requirement for community service and leadership.

61 The student parking/transportation fee of \$78/fall and spring semesters; \$39/summer, will be charged for services (additional parking and shuttle services) in which students share.

Fall 2013 Proposed Tuition and Fees  
University of Arkansas at Pine Bluff

	Fall 2013
<b>TUITION</b>
